Celebration on the Hill 2006 is an American Cancer Society Cancer Action Network event celebrating cancer survivorship and empowering survivors and others to advocate for laws that will help fight the disease.

Celebration on the Hill 2006 will show our country's lawmakers how the American Cancer Society is waging the fight against cancer in communities nationwide. On September 19-20, 2006, nearly 10,000 cancer advocates representing every congressional district in the country will help the American Cancer Society elevate cancer as a national priority toward eliminating the disease as a major health threat.
